Welcome to CCC! Streaming Media!

To get started, go to the CCC! Streaming Media website and log in with the Username and Password you’ve been provided.

This will take you to the home screen. At the top, you’ll see a SEARCH field. You can simply type in a keyword and hit the red search button below (or press the Enter/Return key of your keyboard), or you can narrow your choices by selecting the Curriculum, Subject and Grade Range. Let’s search for “Teddy Roosevelt.”
This brings up a list of programs that feature our search term. Let’s say we’re teaching a lesson on Roosevelt and the Panama Canal. We see that “Building the Panama Canal” is appropriate for grades 5-12, and has a running time of 10 minutes and 10 seconds. To start the program playing, scroll over the icon for the program and click the red “WATCH” button that pops up.

Now a viewer appears. To the left is a description of the program. Below that, you will find that the program includes a Student Activity, a Teacher’s Guide, and a Knowledge Check (quiz). To the right, we can see that the program has been segmented into smaller clips, in case you want to show only a particular section and not the entire program.

To start the program playing, simply click on the Play button in the middle of the Media Player screen (▷) or click on one of the segment titles in the Teaching Segments playlist. To pause at any point, hit the space bar or click anywhere in the Media Player screen. Clicking on the arrows on the far right of the Media Player’s screen will make the program increase in size to full screen.
What if you want to have a clip start and end at a place of your choosing? You do this by adding a new Bookmark. To do this, click on the Add Bookmark button above and to the right of the Media Player screen.

The Add Bookmark screen appears. Here, you can assign a name to your clip and choose a start and end point. Type in a name for your Bookmark. Next, queue up the video to your desired starting point, pause it, and click on the clock icon next to Start Time. The begin time code (displayed in hours, minutes and seconds) appears.

Next, go to the point where you want the clip to end, pause it, and click on the clock icon next to End Time. The end time code appears. Click Save. You've now created a Bookmark.
You can see the Bookmarks you’ve saved by clicking Menu in the upper right of the screen, then clicking on Digital Director and selecting Manage Bookmarks from the drop-down menu.

This takes you to the Manage Bookmarks page, which lists the clips you’ve saved. Here, you have the option to Play or Delete your Bookmarks, or add them to a Playlist. To do this, click the Select box next to the Bookmark, then click on the Play, Add to Playlist, or Delete buttons in the upper right.

If you click Add to Playlist, you will have three choices: Create (create a new Playlist), Add To Existing (to add to a Playlist you’ve already created), or Delete. Click Create, and the Playlist screen appears.
When creating a new Playlist, you must fill in the required fields: Playlist Name, Curriculum, Subject, Topic and Grade Range. If you wish, you can also add a note about the clip.

When you’re done, click the red OK button in the lower right. Your Playlist has now been created. You can add more Bookmarked clips to the list by returning to Manage Bookmarks, checking the boxes next to the clips names, and selecting Add to Existing.

Playlists will appear on your Homepage. You can click on them to play all the items in the Playlist, or access them from any page within CCC! Streaming Media by clicking MY PLAYLIST in the upper right of the black navigation bar. This opens a window that allows you to Play or Delete your Playlist. To share it with others in your school, click Share Playlist.
To return to the previous page from any screen, click on the orange BACK TO... bar at the bottom left of the screen. To exit CCC! Streaming Media, click Log-out in the upper right of the screen (under MENU).

So now you know how to use the basic functions in CCC! Streaming Media. Your CCC! Streaming Media team is here to help you with any questions you may have about our service, so please don’t hesitate to contact us!
